MANAGEMENT PROXY CIRCULAR

(containing information as at December 17, 2012 unless indicated otherwise)

FOR THE ANNUAL MEETING OF SHAREHOLDERS TO BE HELD ON FEBRUARY 14, 2013

PROXY RELATED INFORMATION

SOLICITATION OF PROXIES

This Management Proxy Circular is provided in connection with the solicitation of proxies by management of Iplayco Corporation Ltd. (the “**Corporation**”) for the 2013 Annual Meeting of shareholders of the Corporation (and any adjournment thereof) (the “**Meeting**”) to be held on February 14, 2013, at #215 - 27353, 58th Crescent, Langley, British Columbia at 10:00 a.m. (Pacific time).

Although it is expected that the solicitation of proxies will be primarily by mail, proxies may also be solicited personally, or by facsimile, or by telephone by the directors, officers and regular employees of the Corporation at a nominal cost. In accordance with National Instrument 54-101 – *Communication with Beneficial Owners of Securities of a Reporting Issuer* (“**NI 54-101**”), arrangements have been made with brokerage houses and other intermediaries, clearing agencies, custodians, nominees and fiduciaries to forward solicitation materials to the beneficial owners of Common Shares of the Corporation (“**Common Shares**”) held by such persons and the Corporation may reimburse such person for reasonable fees and disbursements incurred by them in doing so. All costs of solicitation will be borne by the Corporation.

The contents and the sending of this Management Proxy Circular have been approved by the directors of the Corporation.

APPOINTMENT OF PROXYHOLDER

The individuals named in the accompanying form of Proxy are directors and/or officers of the Corporation. **Shareholders have the right to appoint a nominee (who need not be a shareholder) to represent them at the Meeting other than the persons designated in the enclosed form of Proxy, and may do so by striking out the names of those persons named in the accompanying form of Proxy and inserting the name of the appointed representative in the blank space provided in the first page of the form of Proxy or by completing another form of Proxy.**

A form of Proxy will not be valid for the Meeting or any adjournment of the Meeting unless it is completed and signed by the shareholder or by his attorney authorized in writing and received by Equity Financial Trust Company, 200 University Avenue, Suite 400, Toronto, ON M5H 4H1, or by facsimile to (416) 595-9593, or online at <http://www.voteproxyonline.com>, not less than 48 hours (excluding Saturdays, Sundays and holidays) before the time set for the holding of the Meeting or any adjournment thereof. A Proxy is valid only at the Meeting in respect of which it is given or any adjournment of that Meeting. Proxies delivered after that time will not be accepted.

REVOCAION OF PROXIES

In addition to revocation in any other manner permitted by law, a shareholder who has given a Proxy may revoke it by instrument in writing executed by the shareholder or by his attorney authorized in writing and deposited either at the head office of the Corporation, at #215 - 27353, 58th Crescent, Langley, British Columbia V4W 3W7 at any time up to and including the last business day preceding the day of the Meeting, or any adjournment of the Meeting, at which time the Proxy is to be used, or with the Chairman of the Meeting on the day of the Meeting, or any adjournment of the Meeting. A revocation of Proxy does not affect any matter on which a vote has been taken prior to the revocation.

VOTING OF PROXIES

The persons named in the enclosed form of Proxy are directors and/or officers of the Corporation and have indicated their willingness to represent as Proxy the shareholder who appoints them. Each shareholder may instruct his Proxy how to vote his Common Shares by completing the Proxy form.

The Common Shares represented by a properly executed Proxy in favour of persons proposed by management as proxyholders in the accompanying form of Proxy will:

- (a) be voted or withheld from voting in accordance with the instructions of the person appointing the proxyholder on any ballot that may be taken; and
- (b) where a choice with respect to any matter to be acted upon has been specified in the form of Proxy, be voted in accordance with the specification made in such Proxy.

ON A POLL, SUCH SHARES WILL BE VOTED IN FAVOUR OF EACH MATTER FOR WHICH NO CHOICE HAS BEEN SPECIFIED OR WHERE BOTH CHOICES HAVE BEEN SPECIFIED BY THE SHAREHOLDER.

The enclosed form of Proxy when properly completed and delivered and not revoked confers discretionary authority upon the person appointed proxyholder thereunder to vote with respect to amendments or variations to matters identified in the Notice of Meeting and with respect to other matters which may properly come before the Meeting. At the time of printing of the Management Proxy Circular, the management of the Corporation knows of no such amendments, variations or other matters to come before the Meeting other than the matters referred to in the Notice of Meeting and the Management Proxy Circular. If any matters which are not now known to the directors and senior officers of the Corporation should properly come before the Meeting, the persons named in the accompanying form of Proxy will vote on such matters in accordance with their best judgment.

INFORMATION FOR NON-REGISTERED SHAREHOLDERS

Only registered shareholders or duly appointed proxyholders are permitted to vote at the Meeting. Most shareholders of the Corporation are “non-registered” shareholders because the Common Shares they own are not registered in their names but are instead registered in the names of a brokerage firm, bank or other intermediary or in the name of a clearing agency. Shareholders who do not hold their shares in their own name (referred to in this Management Proxy Circular as “Beneficial Shareholders”) should note that only registered shareholders may vote at the Meeting. If shares are listed in an account statement provided to a shareholder by a broker, then, in almost all cases, those shares will not be registered in such shareholder’s name on the records of the Corporation. Such shares will more likely be registered under the name of the shareholder’s broker or an agent of that broker. In Canada, the vast majority of such shares are registered under the name of CDS & Co. (the registration name for CDS Clearing and Depository Services Inc., which acts as nominee for many Canadian brokerage firms). Shares held by brokers or their agents or nominees on behalf of a broker’s client can only be voted (for or against resolutions) upon the instructions of the Beneficial Shareholder. Without specific instructions, a broker and its agents and nominees are prohibited from voting such shares for the broker’s clients. **Therefore, Beneficial Shareholders should ensure that instructions respecting the voting of their shares are communicated to the appropriate person well in advance of the Meeting.**

Applicable regulatory rules require intermediaries/brokers to seek voting instructions from Beneficial Shareholders in advance of shareholders’ meetings. Every intermediary/broker has its own mailing procedures and provides its own return instructions to clients, which should be carefully followed by Beneficial Shareholders in order to ensure that their shares are voted at the Meeting. Often, the form of Proxy supplied to a Beneficial Shareholder by its broker (or the agent of the broker) is identical to the form of Proxy provided by the Corporation to registered shareholders. However, its purpose is limited to instructing the registered shareholder (i.e. the broker or agent of the broker) how to vote on behalf of the Beneficial Shareholder. The majority of brokers now delegate responsibility for obtaining instructions from clients to Broadridge Investor Communication Solutions, Inc. (“**Broadridge**”). Broadridge

typically prepares a machine-readable voting instruction form, mails those forms to the Beneficial Shareholders and asks Beneficial Shareholders to return the Proxy forms to Broadridge or otherwise communicate voting instructions to Broadridge (by way of internet or telephone for example). Broadridge then tabulates the results of all instructions received and provides appropriate instructions respecting the voting of Common Shares to be represented at the Meeting. **A Beneficial Shareholder receiving a voting instruction form cannot use that form to vote such shares directly at the Meeting. The voting instruction form must be returned to Broadridge well in advance of the Meeting in order to have the Common Shares voted. If you have any questions respecting the voting of shares held through a broker or other intermediary, please contact that broker or other intermediary for assistance.**

This Management Proxy Circular and accompanying materials are being sent to both registered shareholders and Beneficial Shareholders. Beneficial Shareholders fall into two categories – those who object to their identity being known to the issuers of securities which they own (“**Objecting Beneficial Owners**”, or “**OBO’s**”) and those who do not object to their identity being made known to the issuers of the securities they own (“**Non-Objecting Beneficial Owners**”, or “**NOBO’s**”). Subject to the provisions of NI 54-101, issuers may request and obtain a list of their NOBO’s from intermediaries via their transfer agents. Pursuant to NI 54-101, issuers may obtain and use the NOBO list for distribution of proxy-related materials directly (not via Broadridge) to such NOBO’s. If you are a Beneficial Shareholder, and the Corporation or its agent has sent these materials directly to you, your name, address and information about your holdings of such shares have been obtained in accordance with applicable securities regulatory requirements from the intermediary holding the Common Shares on your behalf.

The Corporation’s OBO’s can expect to be contacted by Broadridge or their brokers or their broker’s agents as set out above.

Although a Beneficial Shareholder may not be recognized directly at the Meeting for the purposes of voting Common Shares registered in the name of his broker (or an agent of the broker), a Beneficial Shareholder may attend at the Meeting as proxyholder for the registered shareholder and vote his/her/its Common Shares in that capacity. **Beneficial Shareholders who wish to attend the Meeting and indirectly vote their Common Shares as proxyholder for the registered shareholder, should enter their own names in the blank space on the Instrument of Proxy provided to them and return the same to their broker (or the broker’s agent) in accordance with the instructions provided by such broker (or agent), well in advance of the Meeting.**

All references to shareholders in this Management Proxy Circular and the accompanying form of Proxy and Notice of Meeting are to shareholders of record unless specifically stated otherwise.

ANNUAL APPROVAL OF STOCK OPTION PLAN

Effective March 9, 2007, the Corporation adopted a stock option plan (the “**Plan**”). The purpose of the Plan is to attract and motivate directors, officers, employees, consultants and others providing services to the Corporation and its subsidiaries, and thereby advance the Corporation’s interests, by affording such persons with an opportunity to acquire an equity interest in the Corporation through the issuance of stock options. The Corporation is currently listed on Tier 2 of the TSX Venture Exchange (the “**TSXV**”) and has adopted a “rolling” stock option plan as described in TSXV Policy 4.4, being a revolving plan under which options to purchase Common Shares not exceeding a fixed proportion (10%) of the issued and outstanding Common Shares of the Corporation at the time of the stock option grant may be reserved for issuance from time to time.

For a discussion of the terms of the Plan, see “Securities Authorized for Issuance Under Equity Compensation Plans – Stock Option Plan”.

The TSXV requires that “rolling” stock option plans receive annual approval by the shareholders of the subject corporation. Thereafter, notice of options granted under such plan must be given to the TSXV. Any amendments to the Plan must also be approved by the TSXV and, if necessary, by the “disinterested shareholders” of the Corporation prior to becoming effective.

Accordingly, shareholders will be asked to pass an ordinary resolution, in substantially the following form (subject to such changes as may be required by the TSXV) to re-approve the Plan:

“RESOLVED as an ordinary resolution that:

- 1) the Plan, as described in the Corporation’s Management Proxy Circular dated December 17, 2012 and, as available for review at the Corporation’s annual meeting to be held on February 14, 2013, be and is hereby ratified and approved;
- 2) the number of Common Shares of the Corporation reserved for issuance under the Plan shall be no more than 10% of the Corporation’s issued and outstanding share capital at the time of any stock option grant; and
- 3) the Board of Directors of the Corporation be authorized to make any changes to the Plan, if required by the TSX Venture Exchange.”

INFORMATION CONCERNING THE CORPORATION

STATEMENT OF EXECUTIVE COMPENSATION

For the purposes of this Management Proxy Circular, a Named Executive Officer (“NEO”) of the Corporation means each of the following individuals:

- (a) a chief executive officer (“CEO”) of the Corporation;
- (b) a chief financial officer (“CFO”) of the Corporation, or an individual who acted in a similar capacity during the most recently completed financial year, regardless of the amount of compensation;
- (c) each of the Corporation’s three most highly compensated executive officers, including any of its subsidiaries, or the three most highly compensated individuals acting in a similar capacity, other than the CEO and CFO, at the end of the most recently completed financial year whose total compensation was, individually, more than \$150,000, as determined in accordance with subsection 1.3(6) of Form 51-102F6 - *Statement of Executive Compensation*, for that financial year; and
- (d) each individual who would be an NEO under paragraph (c) above but for the fact that the individual was neither an executive officer of the Corporation, nor acting in a similar capacity, at the end of that financial year.

During the Corporation’s most recently completed financial year ended September 30, 2012, the Corporation had three NEOs: Franco Aquila, the CEO; Max Liszkowski, the CFO & Corporate Secretary; and Scott Forbes, the President of the Corporation.

Compensation Discussion And Analysis

The Board is responsible for ensuring that the Corporation has in place an appropriate plan for executive compensation and for making recommendations to the Board with respect to the compensation of the Corporation’s executive officers. The Board ensures that total compensation paid to its NEOs is fair and reasonable and is consistent with the Corporation’s compensation philosophy.

Compensation plays an important role in achieving short and long-term business objectives that ultimately drive business success. The Corporation’s compensation philosophy is to foster

entrepreneurship at all levels of the organization by making long term equity-based incentives, through the granting of stock options, a significant component of executive compensation. This approach is based on the assumption that the performance of the Common Share price over the long term is an important indicator of long term performance.

The Corporation's compensation philosophy is based on the following fundamental principles:

- 1) *Compensation programs align with shareholder interests* – the Corporation aligns the goals of executives with maximizing long term shareholder value;
- 2) *Performance sensitive* – compensation for executive officers should be linked to operating and market performance of the Corporation and fluctuate with the performance; and
- 3) *Offer market competitive compensation to attract and retain talent* – the compensation program should provide market competitive pay in terms of value and structure in order to retain existing employees who are performing according to their objectives and to attract new individuals of the highest calibre.

The objectives of the compensation program in compensating all NEOs were developed based on the above-mentioned compensation philosophy and are as follows:

- to attract and retain highly qualified executive officers;
- to align the interests of executive officers with shareholders' interests and with the execution of the Corporation's business strategy;
- to evaluate executive performance on the basis of key measurements that correlate to long-term shareholder value; and
- to tie compensation directly to those measurements and rewards based on achieving and exceeding predetermined objectives.

With respect to forms of compensation, historically these have been comprised of cash bonuses and incentive stock options. The Corporation has not granted share-based awards.

In 2010, the Corporation implemented a defined contribution pension plan in which NEOs and full-time employees are eligible to participate. For discussion of the terms of the pension plan, see "**Pension Plan Benefits**".

The Board has the discretion to pay bonuses to the executive officers, however, there is a bonus plan pursuant to which bonuses may be earned. For discussion of the terms of the bonus plan, see "**Non-Equity Annual Incentive Plan**".

The Corporation's process for determining executive compensation is done on a case by case basis and involves discussion by the Board of the factors the Board deems relevant to each case. There are no formally defined objectives, benchmarks criteria and analysis that are used in all cases.

The Board can exercise discretion, either to award compensation absent attainment of the relevant performance goal or similar condition or to reduce or increase the size of any award or payout. The Corporation has exercised such discretion and applied it to its NEOs.

Competitive Compensation

Aggregate compensation for each NEO is designed to be competitive. The Board reviews compensation practices of similarly situated companies in determining compensation policy. Although the Board reviews each element of compensation for market competitiveness, and it may weigh a particular element more heavily based on the NEO's role within the Corporation, it is primarily focused on remaining competitive in the market with respect to total compensation.

The Board reviews data related to compensation levels and programs of TSXV listed companies in the Diversified Industries sector with quoted market values ranging between \$1 million and \$2 million prior to making its decisions. These companies are used as the Corporation's primary peer group because they

have similar business characteristics or because they compete with the Corporation for employees and investors. The Board also relies on the experience of its members as officers and/or directors at other companies in assessing compensation levels. The purpose of this process is to:

- understand the competitiveness of current pay levels for each executive position relative to companies with similar revenues and business characteristics;
- identify and understand any gaps that may exist between actual compensation levels and market compensation levels; and
- establish as a basis for developing salary adjustments and option based compensation for the Board's approval.

Aligning the Interests of the NEOs with the Interests of the Corporation's Shareholders

The Corporation believes that transparent, objective and easily verified corporate goals, combined with individual performance goals, play an important role in creating and maintaining an effective compensation strategy for the NEOs.

A combination of fixed and variable compensation is used to motivate executives to achieve overall corporate goals. For the 2012 financial year, the three basic components of executive officer compensation program were:

- fixed salary;
- variable compensation in the form of cash bonuses which may be earned pursuant to the Non-Equity Annual Incentive Plan; and
- defined contribution pension plan benefits.

Fixed salary and contribution to the pension plan comprise the total fixed cash-based compensation. Bonus and compensation represents compensation that is "at risk" and thus may or may not be paid to the respective executive officer depending on the Corporation's performance against revenue and earnings from operations targets.

To date, no specific formulae have been developed to assign a specific weighting to each of these components. Instead, the Board considers each target and the Corporation's performance and assigns compensation based on this assessment and the recommendations of the Board. In determining the total compensation of any NEO, the Board considers all elements of compensation in total rather than one element in isolation.

The Board does not expect to make any significant changes to its compensation policies and practices in the Corporation's next financial year.

Base Salary

The Board approves the salary ranges for the NEOs, as applicable. The base salary review for each NEO is based on assessment of factors such as current competitive market conditions and particular skills, such as leadership ability and management effectiveness, experience, responsibility and proven or expected performance of the particular individual. The Corporation's process for determining this component of an NEO's compensation is done on a case by case basis and involves discussion by the Board of the factors the Board deems relevant to each case. There are no formally defined objectives, benchmarks criteria and analysis that are used in all cases.

During the most recently completed financial year ended September 30, 2012, the base salaries of the Corporation's CEO and President increased by 3.2% pursuant to the CPI (cost of living index) adjustment provisions in their respective employment agreements. During the most recently completed financial year ended September 30, 2012, the Corporation awarded an increase of 3.2% in the base salary of its CFO, in response to the subjective assessment of his performance.

Non-Equity Annual Incentive Plan

Incentive targets are an integral component of compensation that link and reinforce executive decision making and performance with the objectives of the Corporation.

For the most recently completed financial year ended September 30, 2012, the Board simplified the formula to determine cash bonuses for the Corporation's CEO and President. For 2012, the Corporation's CEO and President were each eligible to earn an annual cash bonus of up to 7.5% of the Corporation's annual income before tax.

The Board can exercise discretion to award an annual cash bonus to the Corporation's CFO in response to the subjective assessment of his performance.

Long Term Compensation

The Corporation has no long-term incentive plans other than its incentive stock option plan (the "**Plan**"). The Plan is designed to encourage share ownership and entrepreneurship on the part of the senior management and other employees. The Board believes that the Plan aligns the interests of the NEOs with shareholders by linking a component of executive compensation to the longer term performance of the Common Shares.

Options are determined by the Board. In monitoring or adjusting the option allotments, the Board takes into account the level of options granted by TSXV listed companies in the Diversified Industries sector with quoted market values ranging between \$1 million and \$2 million, its own observations on individual performance (where possible) and its assessment of individual contribution to shareholder value, previous option grants and the objectives set for the NEOs. The scale of options is generally commensurate to the appropriate level of base compensation for each level of responsibility. In addition, previous grant of options are taken into account when considering new grants.

In addition to determining the number of options to be granted pursuant to the methodology outlined above, the Board also makes the following determinations:

- the NEOs and others who are eligible to participate in the Plan;
- the exercise price for each stock option granted;
- the date on which each option is granted;
- the vesting period, if any, for each stock option;
- the other material terms and conditions of each stock option grant; and
- any re-pricing or amendment to a stock option grant.

The Board makes these determinations subject to and in accordance with the provisions of the Plan. The Board reviews and approves grants of options on an as required basis, but no less frequently than annually.

All NEOs are eligible to participate in the Corporation's Plan.

The Board and Compensation Committee has not considered the implications of the risks associated with the Corporation's compensation policies and practices.

NEOs and directors are not permitted to purchase financial instruments, including prepaid variable forward contracts, equity swaps, collars, or units of exchange funds that are designed to hedge or offset a decrease in market value of equity securities granted as compensation or held, directly or indirectly, by the NEOs or directors.

No stock options were granted, vested, or earned, during the Corporation's most recently completed financial year, and no stock options were outstanding at the end of the Corporation's most recently completed financial year.

Pension Plan Benefits

On July 1, 2010, the Corporation implemented a group registered retirement savings plan (“**Group Plan**”) in which NEOs and full-time employees are eligible to participate. The Group Plan provides for NEOs and eligible employees to receive matching contributions from the Corporation at pre-defined rates.

The following table sets forth all payments or benefits to the NEOs, at, following, or in connection with retirement, for the most recently completed financial year:

Perquisites and Personal Benefits

As a junior issuer, the Corporation takes a conservative approach to perquisites; however the Corporation’s objective in awarding perquisites and other personal benefits is to grant competitive perquisites and benefits that allow the CEO and the President to focus on their daily responsibilities and the achievement of the Corporation’s objectives. The process that the Corporation follows in determining when to award perquisites is ad hoc in nature. The Corporation pays for health insurance premiums and related expenses of the CEO and President pursuant to insurance plans that are generally not made available to other employees. The Corporation’s CEO and President also receive car allowances.

Termination and Change of Control Benefits

The Corporation has the following plans or arrangements in respect of remuneration received or that may be received by the Corporation’s CEO and President pursuant to employment agreements (the “**Employment Agreements**”) effective September 25, 2007 with Franco Aquila and Scott Forbes (collectively, hereinafter referred to as the “**Employees**”), in the Corporation’s most recently completed financial year or current financial year in respect of compensating such officers in the event of termination of employment (as a result of resignation, retirement, change of control, etc.) or a change in responsibilities:

Triggering Events and Payments

- 1) The Corporation has agreed that if the Employees are terminated “**Without Cause**” or resign for “**Good Cause**”, the Corporation will pay the Employees, as applicable (the “**Severance**”):

 - (b) an additional amount equal to 24 months of the Employees’ annual salary;
 - (c) the Employees’ current benefits will continue until the earlier of 24 months from the date of termination or resignation and receipt of similar benefits through other employment; and
 - (d) the Employees shall, in the event that they intend to sell their shares in the Corporation or any subsidiary of the Corporation, advise the Corporation of such intent within 30 days of the date of

termination, and the Corporation may, in its sole discretion, repurchase such shares at a price based on the average of the last 20 days of trading from the date such notification is received.

- 2) In the case of a “**Change of Control**”, the Employees have a special right to resign without Good Cause at any time within 6 months after a Change of Control, receive the Severance, and subject to any required approval of the TSXV: (i) upon the announcement of any form of transaction which if completed would constitute a Change of Control and under which shares of the Corporation are to be exchanged or acquired, including a takeover bid, all granted share options of the Employees which have not vested shall be deemed to be fully vested and exercisable so as to permit the Employees to exercise such options and participate in the Change of Control transaction in respect of the Common Shares thereby acquired; and (ii) on completion of any other form of Change of Control, all granted share options of the Employees which have not vested shall be deemed to be fully vested and exercisable.

The following table sets forth all estimated incremental compensation that the Corporation would pay to Franco Aquila and Scott Forbes assuming that the Triggering Event took place on the last business day of the Corporation’s most recently completed financial year ended September 30, 2012:

- (d) not to, without the written consent of the Corporation, during a period of two years following the date of termination for any reason, participate in the management of any competing or similar business operation or enterprise; and

Stock Option Plan

Pursuant to Policy 4.4 of the TSXV, all TSXV listed companies are required to adopt a stock option plan prior to granting incentive stock options. On March 9, 2007, the Board established such a Plan. The purpose of the Plan is to attract and motivate directors, senior officers, employees, management employees, consultants and others providing services to the Corporation and its subsidiaries, and thereby advance the Corporation's interests, by affording such persons with an opportunity to acquire an equity interest in the Corporation through the issuance of stock options.

The Plan is a "rolling" stock option plan permitting the grant of incentive stock options to purchase up to the number of Common Shares that is equal to 10% of the issued Common Shares at the time of the stock option grant. As a "rolling" stock option plan, the Plan is required to be ratified by the shareholders each year at the Corporation's annual meeting and filed with the TSXV. Accordingly, the Plan was initially approved by the shareholders at the annual meeting held on March 9, 2007 and was ratified at the annual meetings held on March 7, 2008, March 13, 2009, March 12, 2010, February 3, 2011 and February 16, 2012. In accordance with the TSXV requirements, the Plan will be placed before the shareholders for ratification at the Meeting. The maximum number of options available to be granted under the Plan as at September 30, 2012 was 1,022,018.

The TSXV's Policy 4.4 and the terms of the Plan authorize the Board to grant stock options to optionees on the following terms:

- 1) The term of any options granted under the Plan will be fixed by the Board at the time such options are granted, provided that options will not be permitted to exceed a term of five years (or as permitted by the TSXV).
- 2) The exercise price of any options granted under the Plan will be determined by the Board, or a duly appointed committee thereof (the "**Committee**"), but shall not be less than the closing price of the Common Shares on the day preceding the day on which the directors grant such options, less any discount permitted by the TSXV to a minimum of \$0.10 per share.
- 3) Except as prescribed by TSXV policies and subject to the discretion of the directors or the Committee, no vesting requirements will apply to options granted under the Plan, however if options are granted at a discount to the market price, a four-month hold period will apply to all shares issued under each option, commencing from the date of grant.
- 4) Options issued to consultants performing investor relations activities must vest in stages over 12 months with no more than 1/4 of the options vesting in any three month period.
- 5) All options will be non-assignable and non-transferable.

- 6) No more than:
 - (i) 5% of the issued shares may be granted to any one individual in any 12 month period;
 - (ii) 2% of the issued shares may be granted to any one consultant in any 12 month period; and
 - (iii) an aggregate of 2% of the issued shares may be granted to all persons who perform investor relations services for the Corporation, as a group, in any 12 month period.
- 7) If the option holder ceases to be a director of the Corporation or ceases to be employed by the Corporation (other than by reason of death), as the case may be, then the option granted shall expire on the earlier of the expiry date or the 90th day following the date that the option holder ceases to be a director or ceases to be employed by the Corporation, subject to the terms and conditions set out in the Plan. However, if the option holder is engaged in providing investor relations services to the Corporation, as either an employee or a consultant, the options will expire on the earlier of the expiry date or the 30th day after the date the option holder ceases to be employed by, or a consultant to, the Corporation to provide investor relations services.
- 8) Upon the death of the option holder, the option shall terminate on the date determined by the Committee (or the Board) which date shall be the earlier of the expiry date and one year from the date of death.
- 9) Disinterested shareholder approval must be obtained for:
 - (i) any reduction in the exercise price of an outstanding option, if the option holder is an Insider;
 - (ii) any grant of options to Insiders, within a 12 month period, exceeding 10% of the Corporation's issued shares; and
 - (iii) any grant of options to any one Insider or an Associate of such Insider, within any 12 month period, which exceed 5% of the Corporation's issued shares.
- 10) Options will be reclassified in the event of any consolidation, subdivision, conversion or exchange of the Common Shares.

The foregoing is only a summary of the salient features of the Plan and is qualified in its entirety by reference to the actual terms and conditions of the Plan.

The TSXV requires that "rolling" stock option plans such as the Corporation's Plan must receive annual approval by the shareholders. Thereafter, a notice of options granted under the Plan must be given to the TSXV.

INTEREST OF INFORMED PERSONS IN MATERIAL TRANSACTIONS

On November 17, 2011, the Corporation entered into a sales agreement of USD\$1,750,000 (or \$1,790,000 – approximate value in Canadian dollars at November 17, 2011) to design, manufacture and install a large indoor play structure for a corporate customer. In order to obtain this sales agreement, the Corporation was required to issue a performance bond of USD\$1,444,000 to the corporate customer (“**Performance Bond**”). As a condition of issuance of the Performance Bond, the Corporation was required to obtain an injection of \$300,000 to secure an irrevocable standby letter of credit in favour of the Performance Bond underwriter. On September 30, 2011, the Corporation entered into promissory note agreements with five of its directors, including the Corporation’s CEO, President and Executive Vice-President to borrow the aggregate principal amount of \$300,000 (collectively, the “**Notes Payable**”). The Notes Payable bear interest at a rate of 18.0% per annum, are unsecured, and interest and capital are payable upon expiry of the Performance Bond. The Performance Bond is to expire once the Corporation completes certain obligations under its contract with the corporate customer. At December 17, 2012, management estimates that the Corporation is expected to complete its obligations under this sales agreement on or before February 28, 2013, at which time the Performance Bond would expire and payment of interest and capital from the Notes Payable would become due.

On May 15, 2012, the Corporation entered into revolving loan agreements (collectively, the “**Loan Agreements**”) with four of its directors, including the Corporation’s CEO and President, and the Corporation’s CFO, to borrow the aggregate principal amount of \$410,000 (collectively, the “**Revolving Loans**”). The Revolving Loans bear interest at the rate of 15.0% per annum, are unsecured, mature on January 31, 2013 and can be renewed for additional six-month periods. Proceeds from the Revolving Loans were used to repay the Corporation’s existing \$500,000 operating loan facility with the Royal Bank of Canada (the “**Operating Facility**”) and to provide the Corporation with additional working capital. As of May 15, 2012, the Corporation had drawn \$195,000 of the Operating Facility. The Royal Bank of Canada advised the Corporation that it required increased security by way of \$500,000 in guarantees supported by term deposits and/or mortgage security in order to maintain the Operating Facility. The Corporation relied on the Operating Facility to fund a significant portion of its working capital requirements. To avoid financial hardship, the Corporation entered into the Revolving Loan Agreements. The Corporation closed the Operating Facility on May 17, 2012.

Except as indicated above, no informed person or proposed director of the Corporation and no associate or affiliate of the foregoing persons has or has had any material interest, direct or indirect, in any transaction since the commencement of the Corporation’s most recently completed financial year or in any proposed transaction which in either such case has materially affected or would materially affect the Corporation.

MANAGEMENT CONTRACTS

The management functions of the Corporation are substantially performed by the directors and officers of the Corporation, and not to any substantial degree by any other person with whom the Corporation has contracted.

INTEREST OF CERTAIN PERSONS OR COMPANIES IN MATTERS TO BE ACTED UPON

Other than as set forth in this Management Proxy Circular, no person who has been a director or executive officer of the Corporation at any time since the beginning of the last financial year, nor any proposed nominee for election as a director of the Corporation, nor any associate or affiliate of any of the foregoing, has any material interest, directly or indirectly, by way of beneficial ownership of securities or otherwise, in any matter to be acted upon other than the election of directors or the appointment of auditors. Directors and executive officers may, however, be interested in the annual approval of the Corporation's stock option plan as detailed in "**Annual Approval of Stock Option Plan**".

IPLAYCO CORPORATION LTD.
Management Proxy Circular
Dated December 17, 2012
Schedule “B”

STATEMENT OF CORPORATE GOVERNANCE PRACTICES

Corporate governance relates to the activities of the Board, the members of which are elected by and are accountable to the shareholders, and takes into account the role of the individual members of management who are appointed by the Board and who are charged with the day to day management of the Corporation. The Board is committed to sound corporate governance practices which are both in the interest of its shareholders and contribute to effective and efficient decision making. National Policy 58-201 - *Corporate Governance Guidelines* (“NP 58-201”) establishes corporate governance guidelines which apply to all public companies. The Corporation has reviewed its own corporate governance practices in light of these guidelines. In certain cases, the Corporation’s practices comply with the guidelines, however, the Board considers that some of the guidelines are not suitable for the Corporation at its current stage of development and therefore these guidelines have not been adopted. National Instrument 58-101 *Disclosure of Corporate Governance Practices* mandates disclosure of corporate governance practices for venture issuers in Form 58-101F2, which disclosure is set out below.

Board of Directors

Structure and Compensation

The Board is currently composed of six (6) directors, of which three (3) are independent directors (as defined below), namely David Perkins, David L. Wood and Mark Neale, and three (3) are not independent by reason of being members of management of the Corporation, namely Franco Aquila, Scott C. Forbes and Terence E. Forbes. At the Meeting, the Corporation will ask the shareholders to determine the number of directors for the ensuing year at four (4) and propose four (4) current directors of the Corporation as nominees for election. Messrs. Terence E. Forbes and David L. Wood will not stand for re-election as directors at the Meeting.

Form 58-101F2 suggests that the board of directors of every listed Corporation should be constituted with a majority of individuals who qualify as “independent” directors under National Instrument 52-110 – *Audit Committees* (“NI 52-110”), which provides that a director is independent if he or she has no direct or indirect “material relationship” with the Corporation. “Material relationship” is defined as a relationship which could, in the view of the Board, be reasonably expected to interfere with the exercise of a director’s independent judgment. Of the proposed nominees, Franco Aquila (Chief Executive Officer) and Scott Forbes (President) are considered “inside” or management directors and, accordingly, are not considered “independent”. The remaining current directors are considered by the Board to be “independent” within the meaning of s.1.4 of NI 52-110. In assessing the guidelines of NP 58-201 and making the foregoing determinations, the circumstances of each director have been examined in relation to a number of factors.

If all of the proposed directors nominated by management are elected at the Meeting, David Perkins and Mark Neale will be the independent directors of the Corporation. The independent directors exercise their responsibilities for independent oversight of management, and are provided with leadership through their position on the Board and ability to meet independently of management whenever deemed necessary.

The quantity and quality of the Board compensation is reviewed on an annual basis. At present, the Board is satisfied that the current Board compensation arrangements adequately reflect the responsibilities and risks involved in being an effective director of the Corporation. However, the CEO and the President

received \$254,333 and \$254,010, respectively, in total compensation referred to in the Management Proxy Circular. The number of options to be granted is determined by the Board and/or Compensation Committee thereby providing the independent directors with input into compensation decisions.

Mandate of the Board

The mandate of the Board, as prescribed by the *Business Corporations Act* (Alberta), is to manage or supervise the management of the business and affairs of the Corporation and to act with a view to the best interests of the Corporation. In doing so, the Board oversees the management of the Corporation's affairs directly and through its committees. In fulfilling its mandate, the Board, among other matters, is responsible for reviewing and approving the Corporation's overall business strategies and its annual business plan, reviewing and approving the annual corporate budget and forecast, reviewing and approving significant capital investments outside the approved budget; reviewing major strategic initiatives to ensure that the Corporation's proposed actions accord with shareholder objectives; reviewing succession planning; assessing management's performance against approved business plans and industry standards; reviewing and approving the reports and other disclosure issued to shareholders; ensuring the effective operation of the Board; and safeguarding shareholders' equity interests through the optimum utilization of the Corporation's capital resources. The Board also takes responsibility for identifying the principal risks of the Corporation's business and for ensuring these risks are effectively monitored and mitigated to the extent reasonably practicable.

In keeping with its overall responsibility for the stewardship of the Corporation, the Board is responsible for the integrity of the Corporation's internal control and management information systems and for the Corporation's policies respecting corporate disclosure and communications.

Each member of the Board understands that he is entitled to seek the advice of an independent expert if he reasonably considers it warranted under the circumstances.

The Board believes the Corporation is well serviced and the independence of the Board from management is not compromised. The Board does not, and does not consider it necessary to, have any formal structures or procedures in place to ensure that the Board can function independently of management. The Board believes that its proposed composition, in which only two of four directors is a member of management, is sufficient to ensure that the Board can function independently of management. However, the Board would eventually like to be in a position where a majority of directors are independent.

Nomination of Directors and Assessments

The Board determines new nominees to the Board, although a formal process has not been adopted. The nominees are generally the result of recruitment efforts by the Board members, including both formal and informal discussions among Board members and the President and Chief Executive Officer. The Board monitors but does not formally assess the performance of individual Board members or committee members or their contributions.

The Board does not, at present, have a formal process in place for assessing the effectiveness of the Board as a whole, its committees or individual directors, but will consider implementing one in the future should circumstances warrant. Based on the Corporation's size, its stage of development and the limited number of individuals on the Board, the Board considers a formal assessment process to be inappropriate at this time. The Board plans to continue evaluating its own effectiveness on an ad hoc basis. The current size of the Board is such that the entire Board takes responsibility for selecting new directors and assessing current directors. Proposed directors' credentials are reviewed in advance of a Board Meeting with one or more members of the Board prior to the proposed director's nomination.

Orientation and Continuing Education

New directors are provided with an information package about the Corporation and are briefed on strategic plans, short, medium and long term corporate objectives, business risks and mitigation strategies, corporate governance guidelines and existing Corporation policies.

The skills and knowledge of the Board as a whole is such that no formal continuing education process is currently deemed required, with the exception of financial literacy training relating to International Financial Reporting Standards for the Directors who are members of the Audit Committee. The Board is comprised of individuals with varying backgrounds. Board members are encouraged to communicate with management, auditors and technical consultants to keep themselves current with industry trends and developments and changes in legislation, with management's assistance. Board members have full access to the Corporation's records. Reference is made to the table under the heading "Election of Directors" for a description of the current principal occupations of the Corporation's Board.

Expectations of Management and Ethical Business Conduct

The Board expects management to operate the business of the Corporation in a manner that enhances shareholder value and is consistent with the highest level of integrity. Management is expected to execute the Corporation's business plan and to meet performance goals and objectives. To date, the Board has not adopted a formal written Code of Business Conduct and Ethics. However, the current limited size of the Corporation's operations and the small number of officers and employees allow the independent members of the Board to monitor on an ongoing basis the activities of management and to ensure that the highest standard of ethical conduct is maintained. As the Corporation grows in size and scope, the Board anticipates that it will formulate and implement a formal Code of Business Conduct and Ethics.

Board Committees

Committees of the Board are an integral part of the Corporation's governance structure. At the present time, the Board has three committees: the Audit Committee, the Compensation Committee and the Corporate Governance Committee.

Audit Committee. The Audit Committee currently consists of three (3) independent directors, namely Messrs. David L. Wood, Mark Neale and David Perkins, and one (1) non-independent director, namely Mr. Terence E. Forbes. Disclosure with respect to the Audit Committee, as required by NI 52-110, is contained in this Management Proxy Circular. If all of the proposed directors nominated by management are elected at the Meeting, the Board intends to appoint Messrs. Perkins (as Chair) and Neale to the Audit Committee, both of whom will be independent, and Mr. Franco Aquila, who will not be independent.

Compensation Committee. The Compensation Committee currently consists of three (3) independent directors, namely Messrs. David L. Wood, Mark Neale and David Perkins, and one (1) non-independent director, namely Mr. Franco Aquila. The Compensation Committee has responsibility for determining the appropriate levels of compensation for management and for determining related compensatory matters such as the granting of incentive stock options, however, the Board as a whole reviews the compensation for management and directors. The Compensation Committee meets at least annually. If all of the proposed directors nominated by management are elected at the Meeting, the Board intends to appoint Messrs. Neale (as Chair) and Perkins to the Compensation Committee, both of whom will be independent.

Corporate Governance Committee. The Corporate Governance Committee currently consists of three (3) independent directors, namely Messrs. David Wood, Mark Neale and David Perkins and one (1) non-independent director, namely Mr. Scott Forbes. The Corporate Governance Committee has responsibility for reviewing the governance policies and practices of the Corporation and their conformity to the Guidelines. This Committee also has been given responsibility for assessment of the performance of the Board and its members, nominees for elections as director, assessment of the orientation and education of

new Board members, review of directors' compensation and insurance, and review of the mandate of the Board, its committees and management. The Corporate Governance Committee also will determine if it is appropriate for individual directors to engage outside advisers in any situation. Through the Corporate Governance Committee, the Board will continue to assess its policies and practices and the effectiveness of management and the Board members in carrying out their respective duties. If all of the proposed directors nominated by management are elected at the Meeting, the Board intends to appoint Messrs. Neale (as Chair) and Perkins to the Corporate Governance Committee, both of whom will be independent, and Mr. Scott Forbes, who will not be independent.
